

Sustainability Policy at Klippan Safety

Klippan Safety aim to be sustainable in the business, from concept to serial production of products and services, and in the supply chain. Klippan Safety have four core values for sustainable development:

Sustainable Raw Material

Design for sustainable raw materials and source raw materials sustainable

Workforce Wellbeing

Aim to ensure employees at Klippan Safety and in the supply chain are treated well and empowered

Carbon Neutrality

Strive towards carbon neutral business and supply chain

Circular Value Chain

Promote circular use of resources in Klippan Safety's business and value chains

Sustainable development for Klippan Safety includes all three dimensions: Economy, Environment and Society. Klippan Safety's Code of Conduct is part of being a sustainable and responsible business both internally and across the entire supply chain.

Klippan Safety work proactively with continuous improvement to reduce the business climate footprint and to meet customer, business, and legal sustainability requirements.

Klippan, 2024-06-10

Gabriel Grelte, CEO
